

## TSCA Statement

**Products covered: All products manufactured by Arcos Hydraulik AB.**

We hereby declare that no TSCA Certification is required for products manufactured by Arcos Hydraulik AB.

Any chemical substances that are exported to the US are required to be compliant under TSCA to be imported.

According to EPA website under "Negative Certification Statement" no certification is required for chemicals that are a part of an article.

The chemical substances contained in the products manufactured by Arcos Hydraulik AB are not intended to be released into the environment by design. Therefore they are part of an article and the US Importer is not required to provide a TSCA Certification when importing these items.
